

Work better together. Centric's Adoption Services help your enterprise make the most of your Office 365 investment.

Maximizing Office 365 is more than simply moving your email to the cloud. We focus on all aspects of the adoption lifecycle and go beyond technical configuration to bring together organizational change, governance, policies, support readiness, and integration to drive successful, long-term adoption of Office 365.

A dramatic shift is taking place in how we work. Employees need to securely access applications and data from any device, at any time. As physical and virtual worlds converge, a more interactive culture is taking shape. The need to find reliable ways to communicate and engage is more important than ever.

Microsoft Office 365 is a platform that can help organizations adapt and thrive in this new way of working. Options such as SharePoint, OneDrive, Delve, and Groups provide a suite of interconnected capabilities that allow employees to communicate and collaborate in the same manner as in their non-work lives.

Enterprise adoption of these new tools is critical to enhancing productivity, innovation, and engagement. When employees buy in, your organization is leaner, more agile, and better positioned to compete in the global marketplace. And that's where Centric can help.

Centric helps connect people, ideas and capabilities to drive higher Office 365 employee engagement, productivity and innovation. We help people work *better together*.

OFFICE 365
implementations

15-
20%
additional
features
deployed

80%
email only utilization

Only 15-20% of companies that implement Office 365 utilize additional capabilities beyond email implementation. Centric helps you to *go beyond email* with additional Office 365 capability integration.

Our Approach to Office 365

Every organization is different and there is no single formula for adopting Office 365. We begin with understanding each client's unique requirements, business drivers, and readiness to use and support Office 365. We align the capabilities of the platform to your specific business requirements and can help the user community adopt these new tools into their daily work processes. We ensure the necessary support and training are in place to ensure a smooth transition.

Let Us Help You Work Better Together with Office 365

We take a holistic approach with Office 365 to connect your people and platforms in a way that drives higher employee engagement, productivity and innovation. Contact us today to learn more.
