

Introducing Apex

A digital workplace jump-start for the Akumina Employee Experience Platform

ACCELERATE YOUR DIGITAL WORKPLACE

With Apex, our 16-week engagement, Centric will guide you through a streamlined, five-phased approach to help you get started with Akumina. Our blended team of technical experts and change management professionals ensure a successful deployment that is technically optimized and fully adopted by your employees.

FROM DESIGN TO DEPLOYMENT IN FOUR MONTHS

Discovery / Understand business objectives and existing capabilities. Help define the employee journey.

Design / Define and design the detailed solution. Translate requirements into design concepts and requirements. Identify personas and complete wireframe design.

Develop / Translate the approved design into the Akumina interface and Microsoft SharePoint. Develop user communication and training collateral.

Test / Complete formal testing and full user-acceptance testing. Focus on content, links, integrations and mobile experience.

Launch / Couple technical deployment with user migration and adoption for successful implementation. Deploy optimization tools to measure and enhance performance.

Is your Intranet Experience Out of Date?

Reimagine your digital workplace powered by the Akumina platform, a lightweight framework that leverages SharePoint's document and content management services while providing a richer overall experience.

- Increase employee engagement with a modern, mobile-friendly user interface.
- Apply your brand and culture consistently across your intranet with simpler administrative tools and personalization features.
- Access analytics to track employee engagement and report improvements.
