

Data Strategy and Roadmap

Why Partner With Us

Specialties

- Practical and executable Data & Analytics Strategies and Roadmaps
- Solution architecture with traditional and novel technologies
- Technology-agnostic assessments and recommendations; Technology expertise in design and implementation

Approach

- Holistic framework to drive Modern Analytics Platform design
- Methodology to align data visualization to business processes
- Pragmatic agile delivery approach for Enterprise Data Warehouse solutions
- Machine Learning implementation framework

Experience

- On-shore team of seasoned strategists and architects
- Senior offshore team, each with data expertise, strong communication skills and overlapping US hours

Centric Data & Analytics Practice

PLAN FOR THE FUTURE
Collaborate on a comprehensive plan combining data assets to improve insights, efficiency and business growth.

BECOME A DATA-DRIVEN ORGANIZATION
Deliver early and ongoing value while building a sustainable path to an information-driven future.

RESOURCES AND RELATIONSHIPS
We bring the resources of a large organization while building relationships you would expect from a small company.

Strategy Approach

The Centric approach results in a business-aligned and execution-oriented roadmap across **people, process, information, structure, metrics and technology** to achieve your strategic goals.

Our Data & Analytics Strategy
