AI Readiness Self-Assessment:
Is Your Organization Prepared for AI Integration?

Visit www.centricconsulting.com to learn more.

INTRODUCTION

Artificial intelligence (AI) has the potential to revolutionize businesses across industries. However, successful AI adoption requires careful planning and alignment with your organization's goals and capabilities. This self-assessment tool will help you evaluate your company's readiness for AI integration and identify areas that may need attention before embarking on your AI journey.

INSTRUCTIONS

Answer each question in the self-assessment by assigning a score from this 5-point scale:

1

**NOT STARTED OR
NO PROGRESS**

2

**INITIAL DISCUSSIONS
OR PLANNING STAGE**

3

**SOME PROGRESS
MADE**

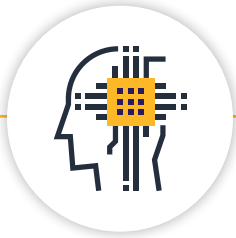

4

**SIGNIFICANT PROGRESS
BUT NOT COMPLETE**

5

**FULLY IMPLEMENTED
OR ADDRESSED**

VISION AND STRATEGY

Do you have a clear vision for how AI could transform your business?

score

Is your AI vision aligned with your overall business strategy?

score

Have you established guiding principles for ethical AI deployment?

score

CURRENT STATE ANALYSIS

Have you assessed your current business operations for potential AI improvements?

score

Have you prioritized which of these are the most significant business challenges that AI could help you address?

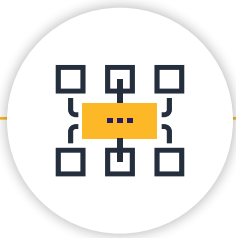

score

Have you established guiding principles for ethical AI deployment?

score

STAKEHOLDER ALIGNMENT

Have you engaged stakeholders from across the organization in your AI planning?

score

Are your employees' assumptions and beliefs about AI understood?

score

Is there a communication plan to keep stakeholders informed and committed?

score

AI GOVERNANCE

Do you have a governance team in place?

score

Do you have comprehensive policies following a risk management framework like the National Institute of Standards and Technology (NIST)?

score

Do you have a process for AI use case evaluation and approval?

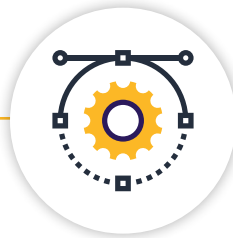

score

OPERATING MODEL READINESS

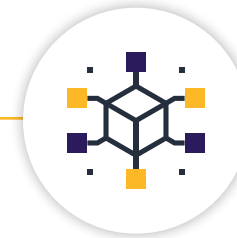

Does your current operating model support AI integration?

score

Have you identified the necessary changes to processes, technology, and skills?

score

Are your decision-making processes conducive to AI adoption?

score

DATA AND TECHNOLOGY INFRASTRUCTURE

Do you have the necessary data infrastructure to support AI initiatives?

score

Have you assessed the quality and potential biases in your datasets?

score

Are your current technology platforms compatible with AI integration?

score

RISK MANAGEMENT

Have you identified potential risks associated with AI adoption in your industry?

score

Do you have mechanisms in place to monitor and mitigate AI-related risks?

score

Have you considered the ethical implications of your planned AI use cases?

score

CAPABILITY ASSESSMENT

Do you have the in-house expertise needed for AI integration?

score

Have you identified skills gaps that need to be addressed?

score

Is there a plan for ongoing AI education and training for your workforce?

score

VALUE ALIGNMENT

Have you defined clear metrics for measuring the ROI of AI initiatives?

score

Are your planned AI investments aligned with delivering business value?

score

Do you have a process for continuously evaluating and adjusting your AI strategy?

score

CALCULATING YOUR RESULTS

To calculate your overall AI readiness score, simply add up your scores from all questions to get your results.

INTERPRETING YOUR RESULTS

AWARE

27-47

Your organization is in the earliest stages of AI readiness and experimentation. Significant work is needed across all areas.

DEVELOPING

75-101

Your organization is making significant progress toward AI advancement, but there's room for improvement in several areas.

EXPERIMENTING

48-74

You've increased AI experimentation and addressed some important aspects of AI readiness, but there are still major gaps to fill.

OPERATIONALIZING

102-128

You're well on your way to being an enterprise AI innovator. Focus on refining your approach and addressing any remaining weak spots.

ADVANCED

129-135

Your organization demonstrates a high level of AI readiness. Continue to monitor and mature your AI strategy as the field evolves.

CONCLUSION

Understanding your organization's readiness for AI adoption is crucial for success. This self-assessment provides a starting point for identifying strengths and areas for improvement in your AI preparation journey.
